Letter.

No.G-6/S/11/ 1289
Electric Grid Offices,
Mercantile Bank Building,
Bombay 1: 6 May,,1952.

To

The Secretary to the Government of Bombay,
Public Works Department,
Bombay.

Subject:- Typewriters sanction of for the office of the Executive Engineer(Civil)Hubli.

Reference:- Government Public Works Department Letter (x) No.S/181/12/64875 A of 6-8-51.

(x) Supp II in file S.181/12/13818

I am to invite a reference to the correspondence resting with Government Public Works Department letter No.S/181/12/13818-A of 18-2-52 on the subject noted above and to state that the policy size typewriter sanctioned by the Government for only six months in Government Public Works Department letter (x) No.S/181/12/64875-A of 6-8-51 was received by Executive Engineer(Civil)Hubli on 17-12-51 and after a short period there would be no sanction for the retention of this typewriter. The typewriter taken on hire was returned by the Executive Engineer on receipt of the typewriter sanctioned only for six months.

Δ Supp B do —

2. Executive Engineer(Civil)Hubli reports that the Division has now come in full swing and as such the typewriter work has considerably increased and it is not possible to cope with the work with only one existing typewriter. There is considerable work for typing such as Contractors' bills, Budgets, the work of Technical Staff, Statements, Estimates, Contract Documents, Tenders and Account Documents etc. Executive Engineer(Civil), Hubli has requested for the supply of one brief size typewriter also for his Division., in addition to the policy size typewriter referred to above.

3. Indent in quintuplicate and certificate of essentiality for the brief size typewriter are enclosed.

4. Taking into consideration the volume of typing work at the Hubli Division at present the Executive Engineer has been allowed to hire one brief size typewriter for the period of two months to cope with the increased work.

5. I am, therefore, to request you to kindly move the ~~the~~ Government to accord their sanction for the retention of policy size typewriter permanently for his Division and supply of a brief size typewriter to Executive Engineer(Civil)Hubli. The Director, Government Printing and Stationery may please be requested to supply it to the officer concerned.

6. The information called for in accordance with para 115 of the Bombay Printing and Stationery Mannual is enclosed.

2. In G.L. No. S.181/12/64875-A, dated 6/8/57, sanction was accorded to the supply of a policy size typewriter for the use of the office of the Ex. Engr. (Civil) Hubli for a period of six months in the first instance. This typewriter was received by that officer from the S.G.P.S., B'bay on 17/12/57, and hence in accordance with G.L. referred to above, this typewriter will have to be returned to the S.G.P.S. after a period of six months from 17/12/57. For the reasons explained in his letter within, the C.E., B.E.G. requests Govt to allow the Ex. Engr. (Civil) Hubli to use permanently the above mentioned policy size typewriter in his office. The C.E., B.E.G., also requests that in order to cope up with the increased work of

(S) Slip 'A' in f/s

of typing, one brief size typewriter should also be supplied to the office of the Exi Engr. (Civil) Hubli, in addition to allowing the permanent use of the policy size typewriter referred to above

3. In the circumstances explained, both the requests of the CE., BE.G., may be approved.

4. Please see also para 4 of the CE, BE.G's letter within; That officer has already allowed the Exi Engr (Govt) Hubli to hire one brief size typewriter, in anticipation of Govt sanction, in order to cope up with the increased work. This action of the CE, BE.G., may also be approved.

Letter.

No.G-6/S/11/24521
Electric Grid Offices, ...
Mercantile Bank Building, Fort,
Bombay 1: 14th August, 1952.

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject:- Typewriter - Sanction of - for the Office of the Executive Engineer(Civil), Hubli.

Reference:- Government Public Works Department Letter No. NS.209/61426 A of 4th July 1952.

I am to invite a reference to the Government P. W. D. Letter No. NS.209/61426 A of 4th July 1952 and to state that the Executive Engineer, Jog Karnatak Electric Grid Division, reports it is not possible to cope with the large volume of Office work with only one brief size typewriter as sanctioned in the above cited letter.

2. I am to point out that the above Office, is a heavy construction division, where works costing Rs.2.13 crores are in progress. Apart from the ordinary routine work, a number of estimates, statements, accounts documents, contractors bills etc are required to be typed. Looking to the huge volume of work in the above division, Government was moved under this office No. G-6/S/11/12891 of 6th May 1952 to sanction supply of one more brief size typewriter in addition to the one policy size originally sanctioned under Government P.W.D.Letter No.S/181/12/64875 of 6th August 1951.

3. To cope with the increased work, the Executive Engr., (Civil), Hubli was allowed to hire one brief size typewriter for the period of two months, till the additional typewriter was sanctioned. The Executive Engineer has however obtained on loan one Remington Typewriter standard size and one Portable Type-writer for use in his office from Superintending Engineer, (Southern Circle) Belgaum who had surplus in his office. This is approved by Government P.W.D. under their letter No. NS.200/50917 A dated 4th June 1952.

Taking into consideration the volume of typing work at the Hubli division as explained above, the two typewriters for

P.T.O.

.....for the above division are very necessary in the interest of work. I am, therefore, to request you to kindly move Government to accord their sanction for the retention of one Policy size typewriter sanctioned under Government P.W.D. Letter No. 1S/181/12/64875 of 6th August 1952 permanently in addition to the one Brief size sanctioned under the above cited Government Public Works Department Letter.

x will be put up separately

Submitted with ref. to G.L. No. NS 209/61426-A, dated the 4/4/52 from

2. The C.E., B.E.G., has now reported that the office of the Ex. Engr (Civil) Hubli, is a heavy construction Dn. where works costing Rs 2.13 crores are in progress. In addition to the daily routine work, the C.E., B.E.G. reports that a number of estimates, statements, accounts documents, contractors bills etc. are required to be typed. It is therefore, not possible for the office of the Ex. Engr. (Civil) Hubli to cope up with the enormous volume of typing work with one policy size and one brief size typewriters.

3. In the circumstances, this Deptt may strongly support the proposal of the C.E., B.E.G., to retain

permanently the policy size typewriter, sanctioned for a period of six months from 1-1/12/51, in G.L. No. S.181/12/648-45-A, dated the 6/8/51. The D.D and the F.D. may see me with ref. to their notes, dated the 30/5/52 and 24/6/52, with a request to concur in this Deptt. proposal.

A will be put up if req'd

4. In this connection attention is invited to G.L. No. NS.209/61426-A, dated the 4/4/52. The C.E., B.E.G., has not yet submitted the necy. information called for in para 4 of the G.L., He may be expedited for the same whilst putting up the draft.

LETTER:

No.G-6(S)/JK/ 36285
Electric Grid Offices,
Mercantile Bank Building,Fort,
Bombay 1: 29 November,1952.

To,
The Secretary to Government,
Public Works Department,
Bombay.

Subject:- Typewriter- Retention of-.

Reference:- Govt. P.W.D.Letter No.N.S.209/95865-A, dated the 17th October,1952.

I am to enclose herewith a statement received from the Executive Engineer, Jog Karnatak Electric Grid Division, Hubli showing the information required by para 115 of Bombay Stationery Manual Volume I.

2. On a detailed study of the above statement, it will be apparent that the average number of outward letters and typed letters per day has been increasing day by day in the Divisional Office since its opening. The outward number has increased from 20 to 30 and the typed letters from 18 to 30 per day during the past eight months. I am, therefore, convinced that in order to keep pace with the day to day growing work and the fast progress of the several works of the Division spread over two districts, the expenditure on which during the current year according to the sanctioned allotment is Rs.75 - lakhs, the necessity of two type-writers for the Divisional Office is imperative. The whole scheme is of a considerable magnitude estimated to cost more than rupees 2 crores and some 52 contractors will have been operating on different components sub-works of the Scheme during the course of next three months. The volume of typing work on account of correspondence with contractors and the four sub-divisional offices and other offices, as also on account of typing of estimates, R.A.Bills of firms, contract documents and specifications etc. would be even more than that could be done by two type-writers.

3. Incidentally from experience gained from the working of big construction P.W.D.Divisions like Hubli Division and as also from the reports received from some of the Executive

Engineers, ...

...it may be stated here that the volume of typing work in a Public Works Department Office cannot be correctly assessed with the information under the general rule No.115 of the Bombay Printing and Stationery Manual Volume-I, in as much as unlike other civil offices, the work of a P.W.D. Office has its own pecularity for reasons stated below :-

(a) The Divisional Offices of P.W.D. have a technical branch composed of office attached Junior Engineers Draftsman, Assistant Draftsman etc. whose work also falls on typists.

(b) Though there may be a single forwarding letter with one outward No. the volume of attached statements, like draft tender documents, estimates account documents like R.A.Bills etc. consist of several pages, some times more than 100 pages at a time.

(c) The estimates, contract documents R.A.Bills etc. which are in tabular forms and of figure work entail much time in typing. In fact in big construction Divisions, one type-writer is required to be engaged solely for such type of work leaving another type-writer for typing letters of correspondence. Experience has shown that with only one type-writer in a construction Division, typing of estimates and other technical work of figures is done at the cost of routine correspondence or vice versa, resulting in delay in disposal.

(d) The estimates, contract documents, R.A.Bills, etc. cannot be had in manuscript as several copies have to be taken in such cases at a time.

(e). The volume of office work cannot therefore, be correctly assessed with reference to the number of inward and outward letters alone but with reference to the amount of expenditure incurred in the Divisio during the year.

3/-

43-35

4. For similar reasons stated above, the Government has sanctioned a scond type-writer for the Executive Engineer (Civil) Electric Gid Division, Nadiad, vide Government letter No.S/181/12/13512-AI), dated 21-2-51.

+ with up to regd

5. I am, therefore, to request you kindly to move Government to accor sanction for the retention of the policy size type-writer pemanently for the Divisional Office at Hubli in consideraton of the increased typing work, and the magnitude of annualexpenditure of the Division and the speed at which the works ave got to be executed.

Encl:-Statement.

37

Hon.

Submitted with ref. to G.L. No. NS.209/95865-A, dated the 14/10/52. f35

2. The C.E., B.E.G., has now forwarded f41-43 a statement f39 showing the information required by para 115 of the B'Rays Sig. Manual Vol. I, regarding the typing work in the office of the Ex. Engr., Jog Karnatak Electric Grid Dn., Hubli. It will be seen from the statement f39 within that the average number of outward letters and typed letters per day has been increasing day by day in the Dnl. office since its commencement. The outward number has increased from 20 to 30 and the typed letters from 18 to 30. per day during the past eight months.

In this connection attention is particularly invited to para 3

of the C.E., B.E.G.'s 546 letter within, 241-43
wherein that Officer has explained in greater details the necessity of a policy size typewriter for the Dnl. Office at Hubli.

3. In the circumstances explained, as it is necy. to cope up with the enormously increasing typing work, this Deptt may strongly support the request of the C.E., B.E.G., to retain permanently the policy size typewriter sanctioned for a period of six months from 14/12/51, in Gl. No. S.181/12/64845-A, dated the 6/8/51. The D. may see no. with ref. to that Deptt D.O. No. 33 dated the 10/10/52, with a request to concur in this Deptt proposal.

As the D. has already agreed to the above proposal of this Deptt vide that Deptt D.O. No. 33 dated the 24/9/52, the papers need not

LETTER:

No.G-6(S)/JK/ 3923
Electric Grid Offices,
Mercantile Bank Building, Fort,
Bombay 1: January 2, 1953.

To
The Secretary to Government,
Public Works Department,
Bombay.

Subject:- Retention of typewriter.

Reference:- Govt. P.W.D. Letter No.NS.209/574 A, dated 9th January 1953.

In reply to para 3 of the above cited Government letter I am to state that the Executive Engineer(Civil), Hubli reports that he had obtained on loan 2 typewriters from the Superintending Engineer Southern Circle Belgaum instead of hiring one. This action was approved by Government under Government letter No. NS.200/50917 A, dated 4-6-52, mention of which, was made in this office letter No.G-6/S/11/24521, dated 14th August 1952.

tbr.

Submitted with ref. to para 3 of p51 G.O. No. NS. 209/574-A, dated the 9/1/53.

2. In para 4 of his letter p15 dated the 6/5/52, the CE, PWE G, had allowed the Ex. Engr. (Civil) Kurli, to hire on anticipation of Govt. sanction one brief size typewriter for a period of two months to cope up with the increased work, and had requested Govt. to approve of the action of the D.D. required certain information on this connection, vide its note at p.19 ante, "the CE, PWE.G was requested to p56 furnish the same.

3. The CE, PWE.G., now p53 reports that though he had allowed the Ex. Engr. to hire a typewriter, the Ex. Engr took on loan two typewriters from the

SE, SC Belgaum. In the circumstances the question of approving any action as per para 4 of the CE's letter dated the 6/3/52, does not now arise. These papers may now be recorded after
